Duke E-Z900 Backflow Test Gauge

3- Gauges in one tester with continuous digital display oh highside, lowside & differential pressures.

- Tests all Backflow Assemblies
Per 9th ed. FFCCC&HR-USC manual.
- 0- 250 PSI, Highside & Lowside in 1 PSI increments.
Differential pressures in tenths (000.0 of PSI)
- Automatic Calibration
(By computer chip).
- Accuracy +/- .2 PSID.
(As shown in the FFCCC&HR-USC manual 9th ed. Sec. 9.8, page 187)
- Automatic Off, after 10 minutes of no activity
- Powered by three alkaline batteries (may use rechargeable batteries)
- Low battery Indicator
(star appears top left in display).
- Temperature: 35- 185F.
- Null feature, differential pressure can be reset to zero and then restored to normal operation.
- Light weight (less than 5 lbs.)
- Reviewed by FFCCC&HR-USC

Two pressure sensors (S.S. transducers).

Maximum pressure 1250PSI.

INCLUDES: carrying case & strap
Alkaline batteries, test hoses,
Brass fittings & testing instructions.
